

Hi , good evening sir,

I am a chairman of Pininfarina . Many of you might know about the company , Pininfarina S.p.A. is an Italian car design firm and coach builder ,our company was founded in 1930 that is 92 years ago by Battista Farina.

Everybody knows about Tech Mahindra Ltd. its a leading provider of digital transformation and has been recognised bas a leader in the Everest group automotive Engineering services, bringing together a blend of talent, technology,business accumen and domain expertise. We definitely want you to invest in our company to make history of cars we have been makingsince 80's.

Let's go into the history little bit .

In 1939, world war ll ended automobile production but our company had 400 employee's building 150 bodies a month . Our factory was destroyed by allied bombers ending the firm's operations.

After the war Italy was banned from PARIS MOTOR SHOW that was attended by 809,000 (twice pre war figure. Pininfarina and his son drove two of their cars from Turin to Paris and displayed them in exhibition. The design was honoured in the museum of modern art's landmark presenting “eight automobiles” in 1951.

FIRST THREE CARS DESIGNED BY PININ FARINA

Our firm have included long established customers such as Ferrari, Alfa Romeo, Fiat, Lancia, Maserati to emerging companies in the asian market with Chinese manufacturers like Avichina, chery, and VinFast in Vietnam and Korean manufacturers daewoo and Hyundai.

Ferrari pinin

Maserati A6

Cadillac Jacqueline

Ferrari CR25

Honda Argento vivo

Earlier we started producing our own cars but in 2011 car production operations came to an end because of the contract to produce Alfa Romeo and Spider at San Giorgio plant. We realised that we have specification of designing them but not producing them .

With time we are modernising for a new world , new infrastructure and expansion , which will be beneficial for your company too , we are looking forward to work with you ,adding value to your models by our designs . We have a road map of coming years where we can build together electric hyper cars that can give us profit near or more than 114.5 million euros. We already have prototype designs for you .
